Automatic Pool Cleaner for Above-Ground Pools

You'll never be bugged by
manual pool cleaning again.

*Magic Clean
easily gobbles
dirt and debris.*

The Magic Clean provides you with easy, trouble free operation. You never need to empty or replace debris bags. And because Magic Clean works with your existing filtration system no extra energy consuming booster pump is required. Everything for simple 10 minutes or less installation is included even the hoses.

This bug loves to circulate.

Plus, Magic Clean improves water circulation by acting as a moving main drain, pulling water from the bottom of your pool as it moves. Your water circulates and your pool stays cleaner without the overuse of chemical sanitizers.
